

## Product Specifications Sheet

**Product Name:**  
**Modern Grey Barn Board**

**Origin / History:** Reclaimed from fencing and barn structures in the mid-west.

**Species:** Pine typical, also available in oak.

**Surface Appearance Variation:** Surface texture and patina will vary from board to board and sometimes within a board. Most boards have 3 weathered faces and 1 less weathered face from original application. Old patina faces vary in shades of grey but appear sawn in texture and less weathered than traditional barn board products. Available in band sawn or circle sawn.

**Knots and Nails:** Knots with checking possible but less common in this product. Nail holes and striping from original application seen in longer length boards.

**Dimensions:** Sizes available in 1"x8" and 1"x12". Lengths of 8' up to 16'. Average length of 10-12'

**Colors:** Color can range from grey to light grey.

**Applications:** Wall or ceiling paneling, beam wrap, accent walls, exterior siding.

**Milling:** Not Suggested
